Artificial Intelligence and pattern recognition

Solve problems!
- With search
- Around adversaries
- With constraints
- With logic
- To draw conclusions
- To make plans
- To meet schedules
- To preserve resources
- With uncertainty about the world
- With probabilities for outcomes
- With time
- With the consequences of decisions

Represent knowledge!
- With logic
- To draw conclusions
- To make plans
- To meet schedules
- To preserve resources

Cope!
- With uncertainty about the world
- With probabilities for outcomes
- With time
- With the consequences of decisions

This excellent book!
