General Information

Canvas course site (quiz and homework submission, post grades)

Textbook:  Data Structures and Algorithm Analysis in Java 3rd Edition by Mark Allen Weiss

Grading: 100 points: 10 programming quizzes (best 10 out of 11)
          100 points: Homework (3 or 4 programming projects)
          65 points: Cumulative final exam
          265 total points
General Information

Attendance: The class will be taught online. Lectures will be posted on the course web site. Students must listen to all the course lectures.
A quiz will be given every week except weeks 1, 7 and 14. Each quiz will require adding 1 or more methods to an existing program. The quizzes will be posted on the course website on Monday morning and will be due at 11:59 PM Friday night. Quizzes will be submitted through Canvas. **No makeup quizzes will be given.** Unusual situations such as multi-week illness will be handled on an individual basis. Keep copies of each quiz until it is graded.
General Information

**Homework:** Homework will be submitted through Canvas. Keep copies of each homework until it is graded.

**Grading:** The exact grade ranges will not be determined until after the final exam. Estimated grades will be shown after quizzes 4, 7, and 11. Border line point values will be assigned letter grades using the instructor's subjective evaluation of a student's work.
